## DESCRIPTION

---

Ceramic plate produced in the 1950s after a design by Jean Picart Le Doux, manufactured by the Saint-Vicens workshop in Perpignan.

The bold graphic decoration, set against a deep blue background, depicts a stylized animal figure surrounded by stars. The simplified and high-contrast composition reflects Jean Picart Le Doux's visual language, known for its clear and decorative approach.

The piece is hand-decorated, as indicated by the mark on the underside reading "Dessin de Jean Picart Le Doux, Saint-Vicens", illustrating the collaboration between the artist and this notable post-war ceramic workshop.

France, circa 1950.
